Unified Hardware Ecosystem

Visitors registered in our app gain seamless, secure access via integrated hardware devices.

Face Recognition

Registered visitors get immediate access via high-precision facial recognition machines, ensuring a touchless and rapid entry experience.

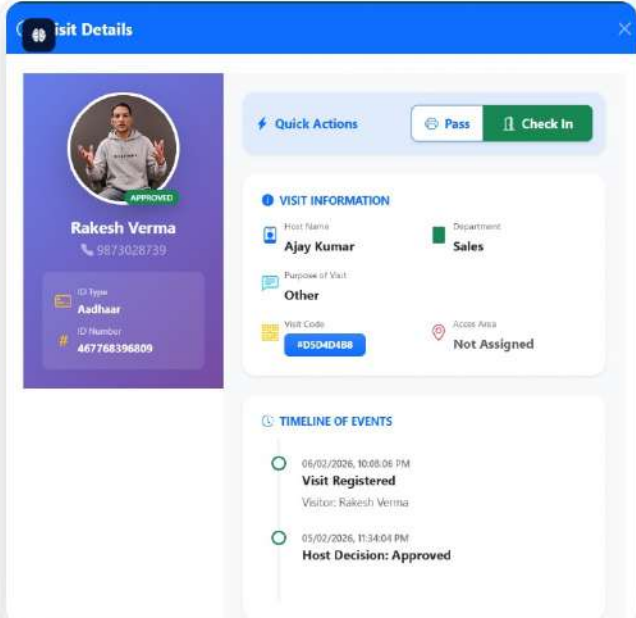

Biometric Access

Seamlessly integrate with fingerprint and palm scanners. Elevate your security by allowing verified visitors access to restricted zones.

Speedy QR Scanning

Visitors scan their digital QR pass at turnstiles or gates. Our app syncs instantly with scanning hardware for zero-delay entry.

Secure & Instant Communication

Keep everyone in the loop with real-time notifications. Validate identities centrally and keep visitors informed on their preferred channels.

 WhatsApp Integration New Send passes & maps directly to WhatsApp

Mobile OTP Verification Authenticate visitors via SMS OTP.

 **Real-time Host Alerts** Instant email & SMS arrival notifications.

Simple Process

Three Steps to Perfection

Simple for visitors, powerful for administrators.

1. Digital Invitation

Hosts send a secure digital link via email.
Visitors pre-register to skip the queue.

2. Arrival Scan

Visitor scans their QR code at the
reception kiosk. Photos and details are
logged instantly.

3. Host Approval

Host approves entry with one click.
Visitor receives a digital pass to proceed.

Instant QR Check-in

Contactless QR scanning for rapid, hygienic, and professional visitor registration.

WhatsApp Integration

Send digital passes, location maps, and entry notifications directly to visitor's WhatsApp.

Badge Printing

Generate and print professional visitor badges instantly for visible identification.

Mobile OTP Verify

Authenticate visitor identities with instant One-Time Password verification sent to their phone.

AI Intelligence

Predict peak traffic hours and monitor crowd density with advanced algorithmic insights.

Real-time Host Alerts

Automatically notify employees via Email or SMS the moment their guest arrives.

Audit-Ready Reports

Download detailed PDF/Excel logs of all visitor activity for compliance and security audits.

Self-Service Kiosk

Allow visitors to check themselves in using a tablet or touchscreen, reducing front-desk load.

Overstay Tracking

Receive automatic alerts when a visitor remains on premises beyond their approved duration.

Multi-Location

Scalable architecture that supports managing multiple gates, buildings, or zones.

Digital Passes

Eco-friendly paperless passes stored directly on the visitor's smartphone.

Role Management

Granular access controls for Admins, Security, Hosts, and Front Desk staff.
